IN RE: Inadequate
Medical Treatment.

COMPLAINT

Warden, Forniss I am again filing a Complaint with your Office for the second time, the first was on March 20th 2006, in an attempt to avoid taking legal action. Warden, Forniss as you already know I have been seeing spots of blood in my stool and since my last complaint these symptoms have changed to worst. Now instead of spots, I am seeing clots of individual blood (clots) in my stool after defecating. My Complaint of March 20th 2006, to you explained my condition (symptoms) along with numerous phone calls from my family placed you on notice of the seriousness and urgency of my medical condition. Warden, Forniss these symptoms I am experiencing is the cause of alarm

that is associated with Colon and prostate Cancers. And as you very well know statistics rate it as the number one killer (Silent) among men's ages 40 to 65 and especially in Afro-Americans. MR. Forniss the Health Care personnel tends to associate the afore said Symptoms with Homosexuality and don't take inmate's seriously when seeking medical attention. I personally don't condone such activity (homosexuality) in here nor in the Free-world as we both know it, nor do I partake in such monstrosity.

Warden, Forniss the Health Care unit have been running and/or conducting blood tests (lab-work) on me for over three (3) month and have yet to send me out for a Colonostic ~~examination~~ Examination as of this date. The health care units seem to be just going through the formality of drawing blood (lab work) from me, I was told I was being on a list for a Free-world appointment. Warden, Forniss if you would just put yourself in my place for one minute, such as being here as to being out in world (Free) experiencing the symptoms. I am experiencing as of this date. And ask yourself the question would I be as serious as him? _____, about my health and life. Knowing that the symptoms I am going

through are associated with prostate and colon cancers, and in considering the High Risk among men's in my age group.

Warden, Fourness I am not trying to cause you or your staff any problems, nor I am I trying or attempting to threatening you or anyone else. I have been patience enough as it is (since February 20, 2006). The afore mentioned symptoms have not improved; but have gotten worse. Instead of only seeing spots, I am now seeing clots of individual blood clots in my stool after using the restroom. (defecating) which have raise my concern to the level of taking legal action by filing a petition for an Emergency Examination/Exam into the State or Federal Court system in a few days if I can't resolve this problem. It have been a proven fact that Early detection is a ounce of prevention and cure to good health and longevity. Therefore Warden, Fourness I am Requesting your assistance in trying to sped up the process, and/or investigate into the matter such as while have it taken so long to get a free-world appointment. Any and all assistance from you concerning this matter will be Gladly appreciated by me and my family's. See (attached Grievances).

Done on this 2nd of May 2006.

Also Filed The same with: State Health Care provider, my Attorney, Gwendolyn Thomas and Copy sent to my Family. Alma Fountain

I sign up for sick-call on 2-22-06 after seeing spots of blood in my stool. Last week have been consistently down on my face the last three months. I was told I would be going out for a colonoscopic examination by the doctor. But as of this date I have not been taken to such examination. My symptoms have worsened instead of seeing spots of blood in my stool now I am noticing clots of blood in my stool after defecating. Do I have to lie before I get you'll do conduct a colonoscopic test if the symptoms associated with prostate & colon cancers. I'm innocent Homosexual nor do I practice in such monstrosity.
